

University & College Clothing Service

Personalised Merchandise for Clubs, Societies, Classes and Student Groups

Image Scotland

Introduction

Image Scotland have been providing quality branded merchandise to the university and college market since 1989. Our fast and efficient service is popular with sports clubs, societies, classes and other student groups who wish to have clothing and other merchandise personalised with the university or college crest or designs of their choice.

- 1000's of garments available including leisurewear, sportswear and outdoor gear.
- A full personalisation service using embroidery, screen printing, digital printing and thermal transfer.
- No minimum order volume on our standard product ranges.
- Free delivery of orders to a centralised university or college campus address.
- Free design set up of your university or college crest.
- All textile embroidery and printing carried out in house to maximise quality control.
- Environmentally friendly, ethically sourced and sustainable product range.

Product Range

Our garment ranges are extensive, and all products can be branded with either embroidery or print techniques or a combination of both depending on the fabric of the product.

Hoodies & Sweatshirts

Pull over, full zip and half zip styles in a range of fabrics and brands.

T-Shirts

Cotton and blended t-shirts in a variety of men's and women's styles with some great sustainable options. Perfect for printing.

Poloshirts

A great range of colours across different brands in different fabrics and weights. Idea for club and society embroidery designs.

Product Range

Varsity Clothing

Campus clothing for everyone including a great selection of rugby shirts, jackets and other leisurewear.

Outerwear

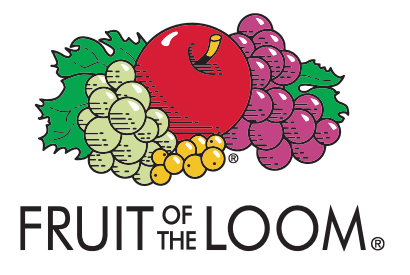

From fleeces to softshells, from waterproofs to padded jackets, we have an extensive range of jackets to suit your budget and your needs.

Sportswear

A full range of fashionable sports clothing in lightweight wicking fabrics, perfect for individual workouts or for team sports.

Branding Services

For over 30 years, we have been personalising clothing and merchandise for further education institutions. We have a broad range of branding techniques available to suit all styles of product and all fabrics. Our facilities include the equipment detailed below.

- 6 embroidery machines with a total of 35 sewing heads.
- 2 six-station screen printing carousels.
- 6 manual heat presses for digital and transfer printing.
- 2 semi-automatic pneumatic high-capacity heat presses for digital printing.
- In-house embroidery digitising.
- In-house print and screen pre-processing and set-up.

Performance Clothing Personalisation

In addition to branding regular merchandise and leisurewear, we are able to offer services where we can personalise performance outdoor clothing through embroidery or printing without compromising the integrity of the product.

- Embroidery on GORE-TEX® and other performance waterproof fabrics, fully taped and sealed.
- Hydrostatic head testing of waterproof fabrics following embroidery and taping.
- Printing on performance fabrics using our specialist screen printed transfer technique.
- Direct supply services of many performance clothing brands including Helly Hansen, Musto, Schoffel, Montane and Haglofs.

Non-Clothing Merchandise

Alongside our range of branded clothing, we offer a variety of non-clothing merchandise which can be personalised with your designs. Choose from a wide range of products.

- Drinkware – including water bottles and keep cups.
- Stationery – pens, rulers, notebooks, sticky notes and any other office based items.
- Conference merch – from bags to lanyards, we have it all covered.
- Awards – all types of presentation awards for end of term functions.

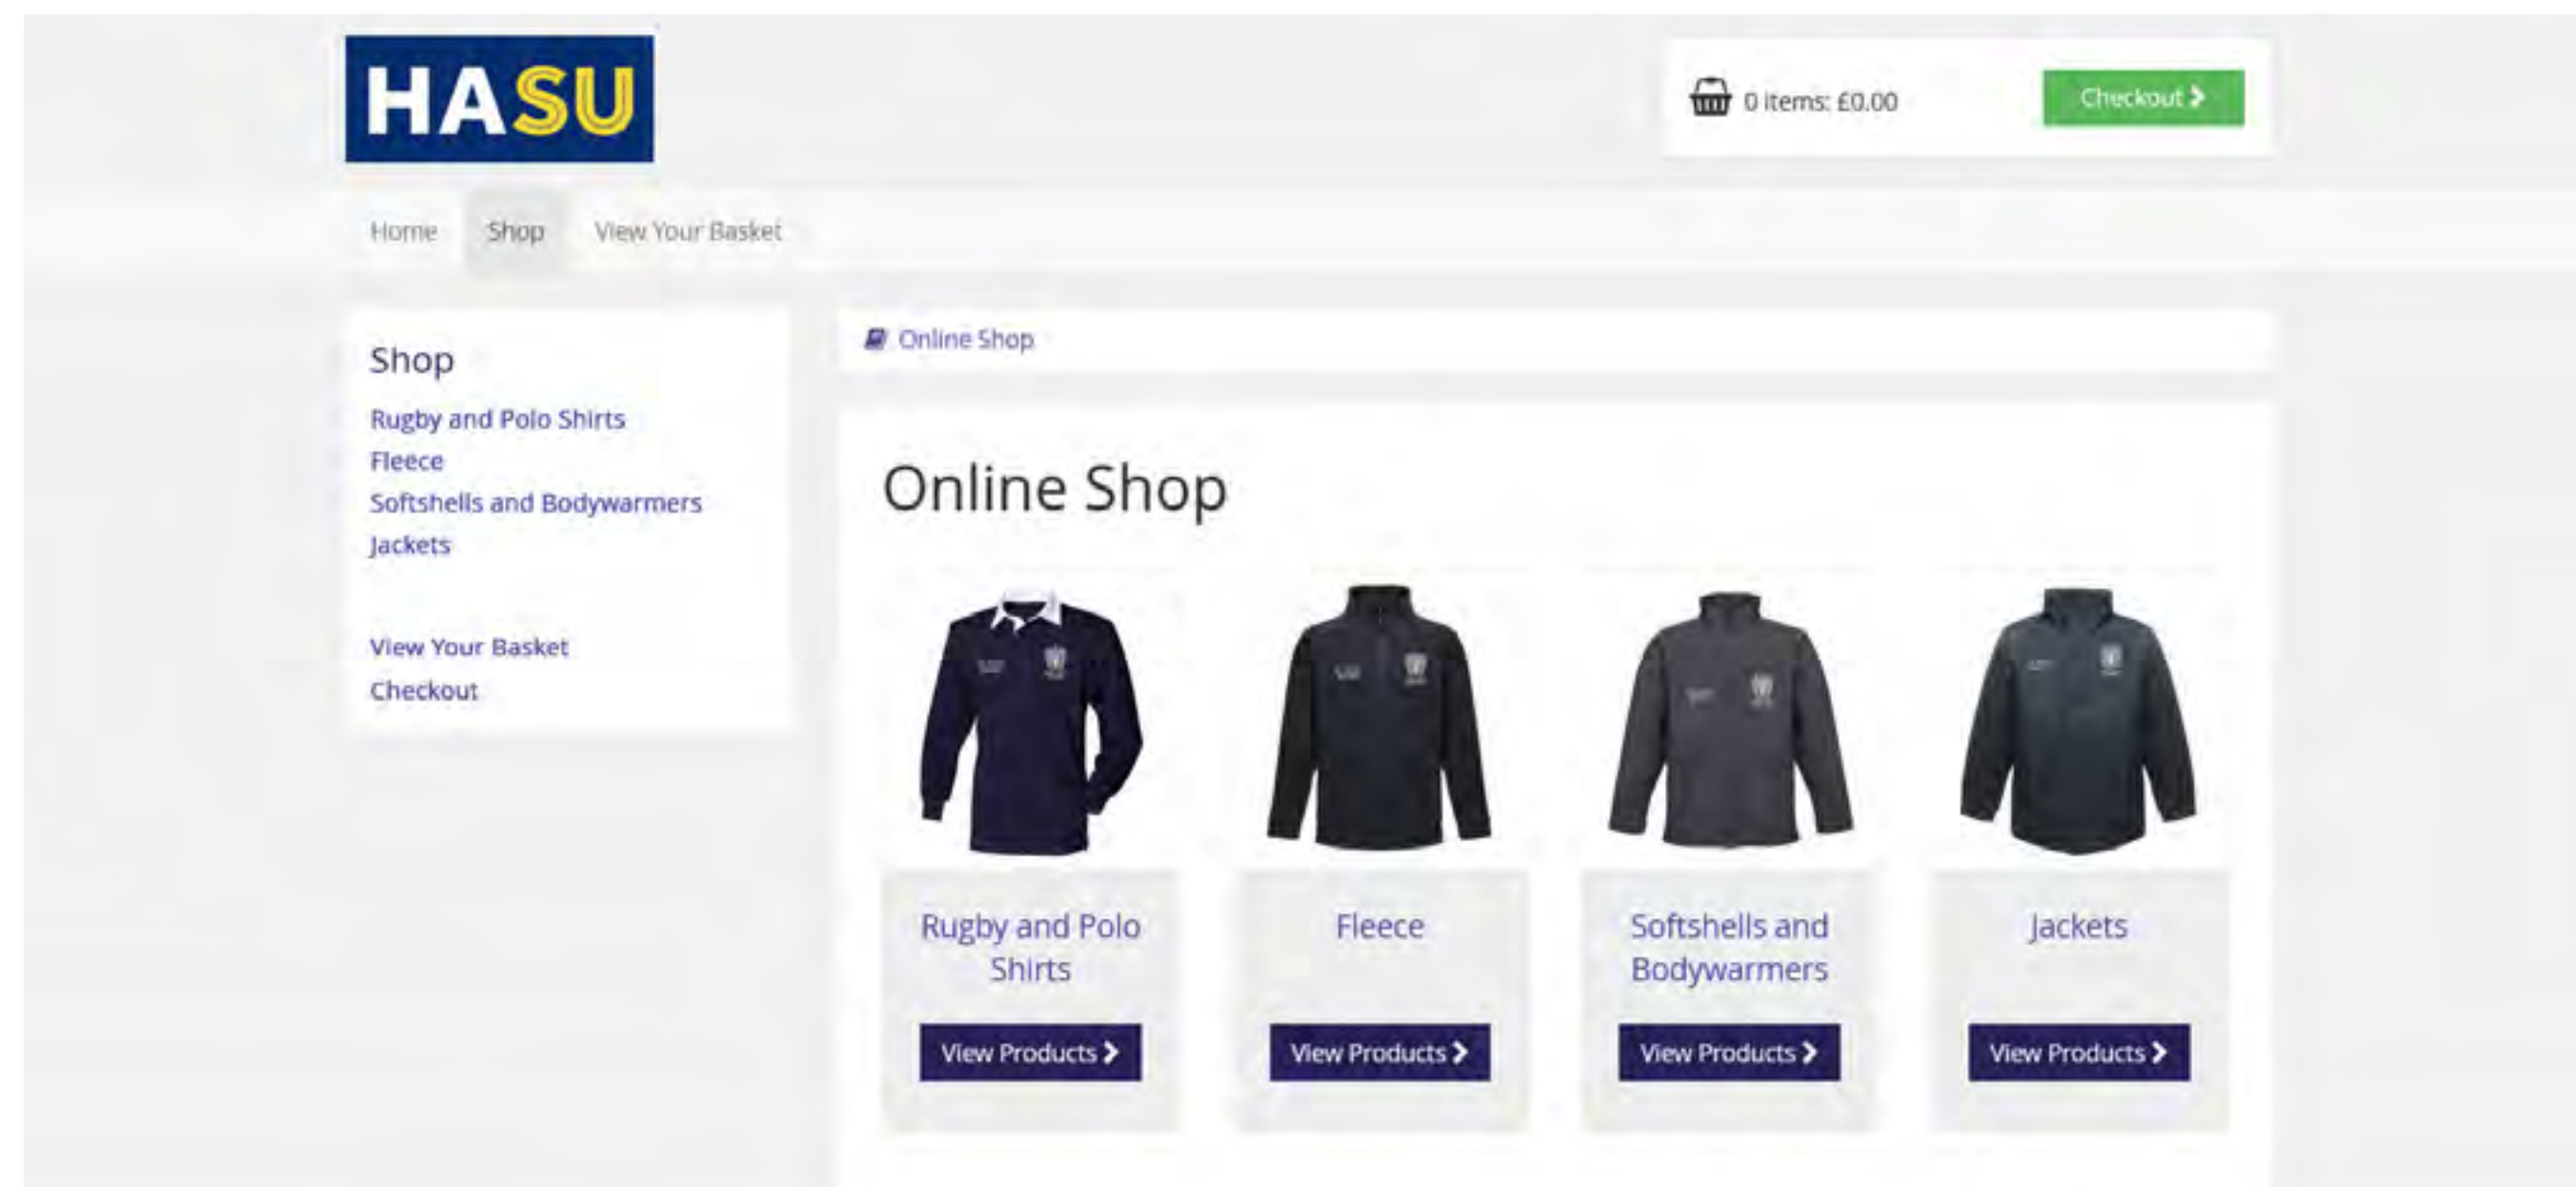

E-Commerce Solutions

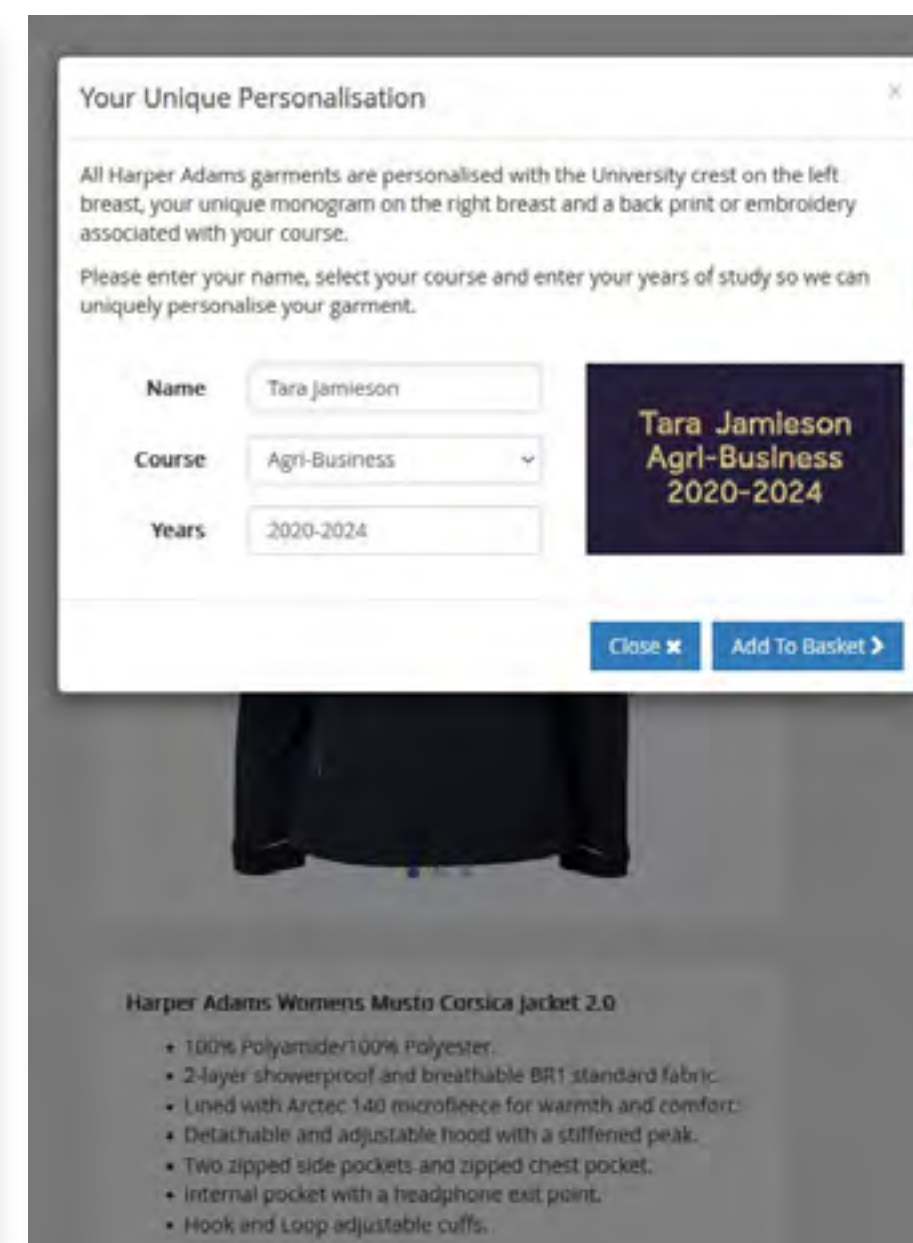

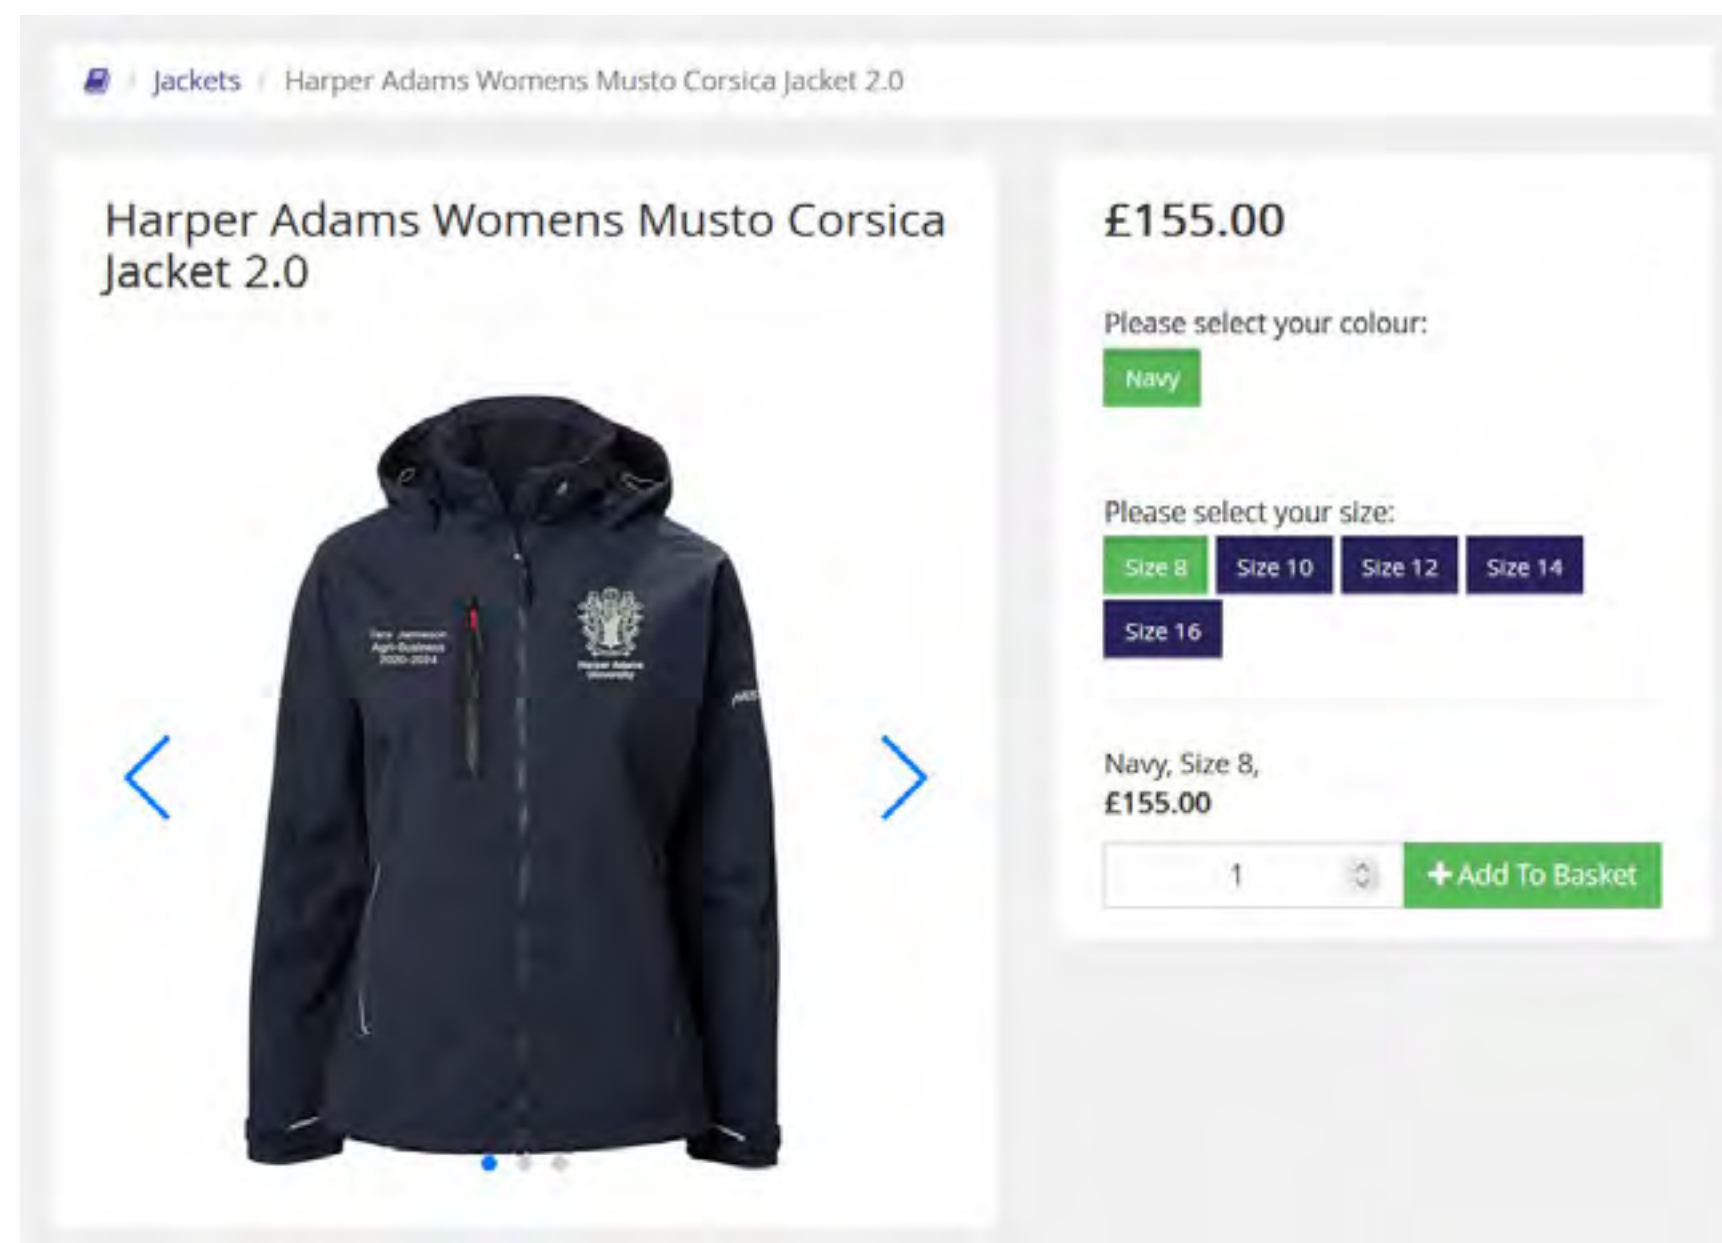

For large student led organisations and societies as well as departmental led merchandise projects, we are able to offer online ordering solutions through our in-house IT business, Image Logistics. There are a number of platforms to choose from to make the ordering process as smooth and efficient as possible.

Case Study – Harper Adams University Students Union. For many years, HAUSU had operated a cumbersome system of collating orders throughout the year for their class clothing. In 2022, Image Scotland were able to support them with the creation of their own tailored online shop for students to access and order directly with us, taking a huge pressure away from Students Union staff.

E-Commerce Solutions

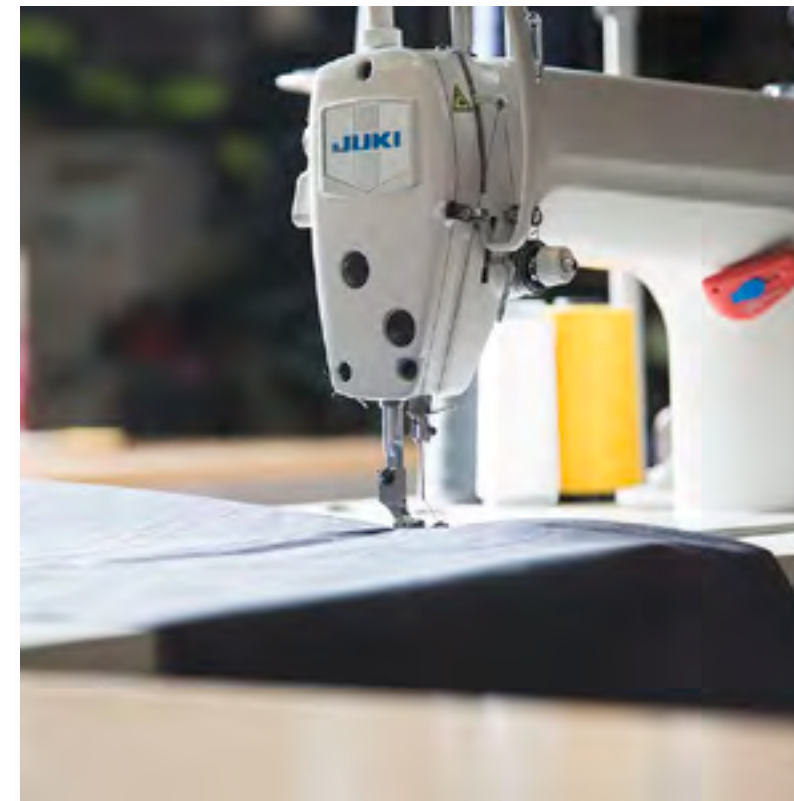

- Selection of the product range you would like to use.
- Creation of an online platform to suit individual needs.
- Orders placed electronically directly with Image Scotland through a basket and checkout process.
- Products branded to order.
- Despatch direct to students or centrally to the university or college.

Outdoor Clothing and Equipment Repair Services

To complement our branding service, we also work closely with the outdoor industry providing repair service on performance outdoor clothing and equipment through our sister company, Scottish Mountain Gear.

- **Warranty and non-warranty repair services for leading outdoor brands and retailers.**
- **Textile repairs carried out on performance clothing, rucksacks, tents and sleeping bags.**
- **Hardwear repairs carried out on tent poles and wheeled luggage.**
- **Fully operational assessment and repair centres with a vast mix of sewing machines and taping equipment.**

Outdoor Clothing and Equipment Repair Services

- Industrial and domestic washers and driers for cleaning products.
- Self-contained down room for working with down products.
- GORE-TEX® authorised repair and service centre.

Sustainability & Ethics

Image Scotland take our sustainability and ethical credentials very seriously. We are proud of the work that we carry out in this area and the contribution that we make towards a cleaner, greener, fairer and more inclusive world.

- Many of the products available with our merchandise ranges are made from recycled materials or are organic.
- The brands that we work with are accredited to WRAP (Worldwide Responsible Apparel Production) who are an independent and objective, non profit team of social compliance experts dedicated to promoting safe, lawful, humane and ethical manufacturing. They use certification and education to ensure that manufacturers adopt a comprehensive code of ethics.
- Our partner brands also work with OEKO-TEX® which is an internationally recognised standard setting minimum acceptable levels for substances that may be harmful to humans and the environment during the production process.
